

Cutting-edge Design

The powertrain is strong and efficient and can easily cope with various environments

Smooth line highlights clear features and the whole vehicle design has four patents

The one-piece design seat is more ergonomic enabling the seats to be spacious and comfortable

Carefree Experience

Passes 179 rigorous tests covering safety, durability, and user experience

Following SAE standards to ensure good driving environment

1.5 years limited warranty for the entire vehicle professional after-sales team supports

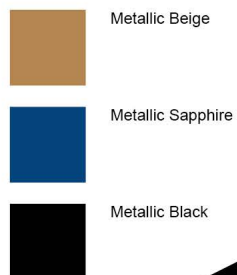

72V permanent magnet synchronous motor with the matching drive system strong power guarantees

Equipped with electronic power steering as standard driving more easily and freely

Ergonomic design foam-wrapped seats and cushions provide excellent comfort

Color selection

Standard electronic display vehicle information at a glance

Headlights and turn signals are concise and stylish and 2 patents were obtained

Equipped with back-up camera and reverse buzzer help driving safety

Minibus 11/14 P

Powertrain	
Motor	72V permanent magnet synchronous motor
Power	10kW rated; 20kW peak
Range	120km unloaded/80km fully loaded
Climbing Capacity	≤25%
Max Speed	30km/h
Minimum Turning Radius	5.5m
Steering System	Tubular column type electric power-assisted rack-and-pinion steering system
Suspension System	MacPherson independent front suspension Variable leaf spring non-independent rear suspension
Battery	12* 6-volt maintenance-free flooded lead acid
Body/Chassis	
Chassis	High quality carbon steel
Body	High quality carbon steel / High strength aluminum alloy
Safety	
Braking System	Front: disc; rear: drum
Parking Brake	Mechanical handbrake
Dimension	
Length*width*height	4950mm*1510mm*2100mm
Wheelbase	2680mm
Tires	Front: 165R13LT; Rear: 175R13LT
Net Weight (including battery)	1360kg
Ground Clearance	135mm unloaded / 95mm fully loaded
Warranty	
1.5 years limited warranty for the entire vehicle
